Plant anatomy lecture | plant anatomy class 11| CBSE class 11 biology - This video tutorial explains plant anatomy and morphology for class 11 CBSE biology. This lecture following NCERT biology book. Plant anatomy or phytotomy is the general term for the study of the internal structure of plants. While originally it included plant morphology, which is the description of the physical form and external structure of plants, since the mid-20th century the investigations of plant anatomy are considered a separate, distinct field, and plant anatomy refers to just the internal plant structures. Plant anatomy is now frequently investigated at the cellular level, and often involves the sectioning of tissues and microscopy.
